Full Parish Council meeting | Wednesday 12 March 2025

## Appendix E – Quotes for gov.uk website and email addresses

### Minute reference: 25/03-8. iv

Gov.uk website address is included in our current plan with our current supplier, Hugo Fox, at no extra cost. Moving to another provider could cost £350 - £600 to redesign the website for another hosting platform.

Gov.uk email addresses do not have to be acquired from the same supplier. Prices vary widely as do the gigabytes available with each account. More research is needed to establish compatible email platforms, setup costs per supplier and ease of use.

It would be sensible to gather more information to properly understand the costs, processes and time involved. It may be prudent to then budget accordingly in 2026/27.
